Summary

Motivated and detail-oriented B.Tech graduate in Electronics and Communication Engineering with hands-on experience in web development and software engineering fundamentals. Proficient in Java, JavaScript, SQL, HTML, CSS, and React with strong problem-solving skills and a passion for learning modern technologies and building innovative applications.

Work Experience

Wyshkit

January 2026 – March 2026

Software Developer Intern

- Developed responsive and user-friendly web applications using HTML, CSS, and JavaScript.
- Collaborated with designers and backend developers to implement new features.
- Used Git for version control and team collaboration.

Technical Skills

- **Languages:** Python, Core Java, JavaScript, SQL, HTML5, CSS3, C, C++
- **Frameworks:** React.js, AngularJS, REST APIs, Web Application Development
- **Technologies & Tools:** GitHub, VS Code, MATLAB, Arduino
- **Core Concepts:** OOPS, Data Structures & Algorithms, DBMS, SQL Queries, Frontend Development
- **Soft Skills:** Communication, Quick Adaptability, Problem Solving, Ability to Learn New Technologies

Education

CMR University, Bengaluru

November 2022 – May 2026

B.Tech in Electronics & Communication Engineering

CGPA: 7.95

Projects

Myntra Clone

- Developed a responsive Myntra e-commerce website clone using HTML5 and CSS3. Implemented Flexbox-based layouts, semantic HTML, and modern CSS styling for navigation, product listings, and footers. Focused on UI/UX consistency, cross-browser compatibility, and clean, maintainable front-end code following web development best practices.

Spotify Clone

- Developed a responsive Spotify Clone web application using HTML, CSS, and JavaScript. Implemented core music player functionalities including play/pause controls, progress bar, song navigation, playlist management, and dynamic audio playback using JavaScript DOM manipulation and the HTML Audio API. Designed a modern and user-friendly interface with responsive layouts for seamless performance across devices.

Gaming Tournament Registration Website

- Developed a responsive Gaming Tournament Registration Website using HTML5, CSS3, and JavaScript for managing esports event registrations and tournament details. Implemented interactive features such as tournament cards, registration forms, countdown timers, smooth navigation, and mobile-responsive UI with a modern gaming-themed design focused on user experience and accessibility.

Certifications

- Python for Data Science — Great Learning
- Microcontroller Embedded C — Udemy
